OPPORTUNITY · ADVENTURE TOURISM

Adventure operator prospectus

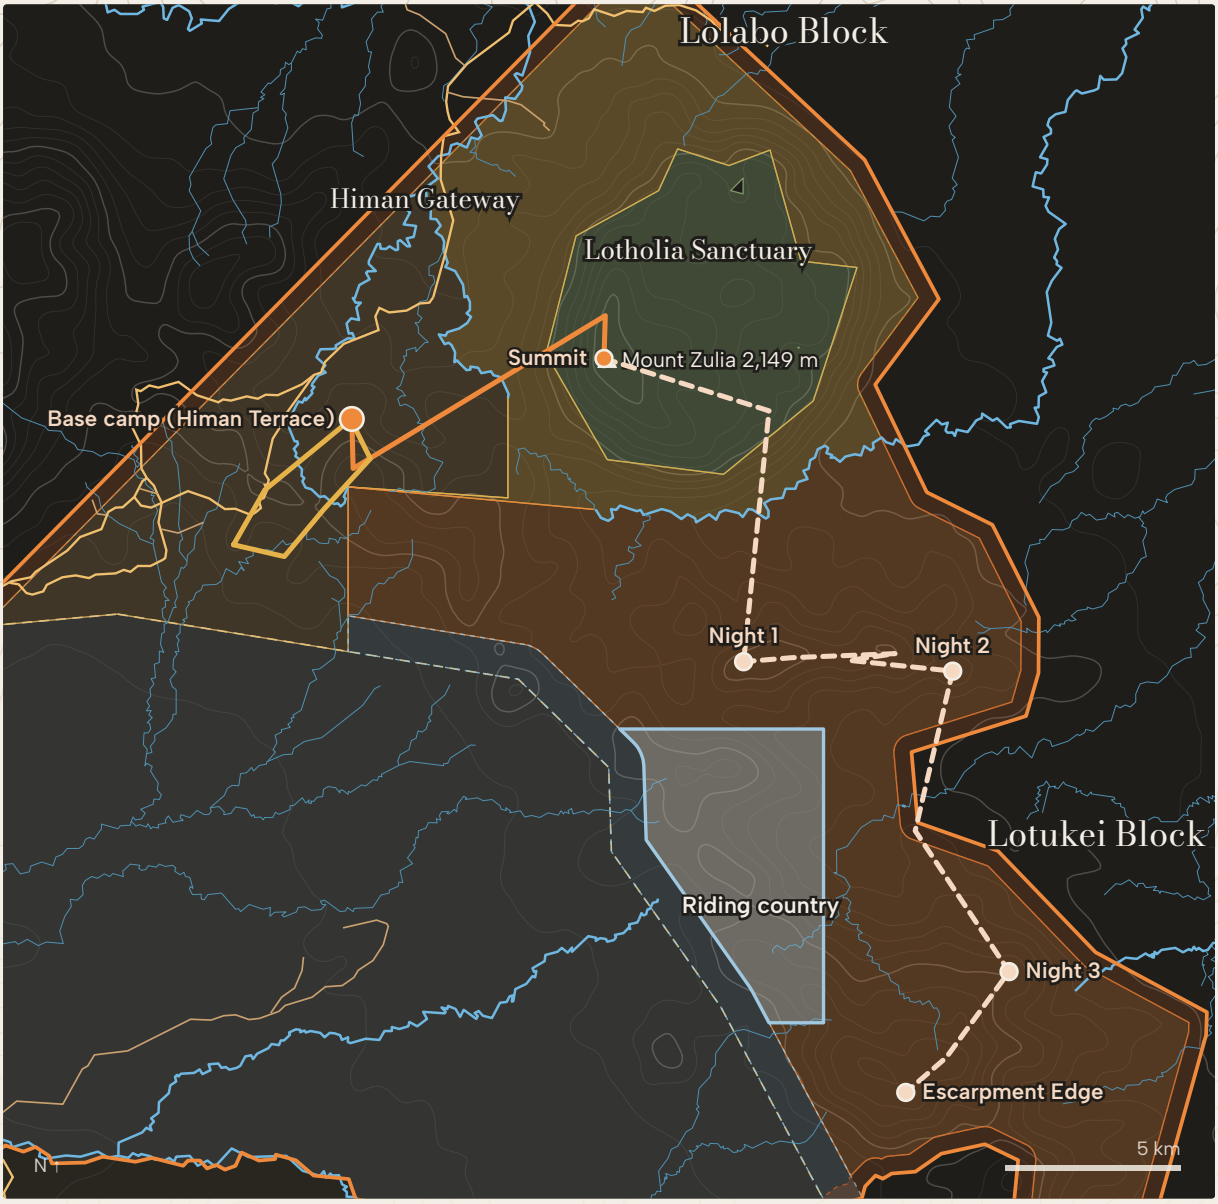

Walking, riding, cycling and climbing in a reserve with almost no roads.

Zulia Conservancy (Uganda) Limited · NFA Licence No. 30 · zuliaconservancy.org · chris@zuliaconservancy.org

THE OPPORTUNITY

No roads. That is the point.

Zulia is 619 km² of granite domes, plateau and escarpment with almost no roads, beside Kidepo Valley National Park. We are looking for specialist operators who move people on foot, on horseback, on bikes and on rock, and who would rather share a simple base camp than build a lodge.

Orange: summit trail from the base camp (two days). Dashed: escarpment traverse from the summit to the Escarpment Edge (four days). Gold: mountain-bike loops round Himan (indicative). Blue: riding country on the southern plateau.

THE PRODUCTS

Four ways in

Walking

A two-day summit trail to Mount Zulia at 2,149 m, and a four-day traverse along the Turkana escarpment with views into Kenya and South Sudan.

Riding

Multi-day rides across the southern plateau from a seasonal camp, with game on the flats and the hills behind.

Bikes and rock

Mountain-bike loops on the Gateway tracks round Himan; climbing on the granite domes.

Licences	An activity licence for each operator, with a five-year lead licence for one operator per activity.
Fees	A conservation fee per guest-day, a ranger-escort fee and a base-camp bed-night rate; part of every fee goes to the community.
Base camp	A shared, low-impact base camp built and run by the lead walking operator and open to the others: on the Kidepo River frontage in the zone we co-manage with the Uganda Wildlife Authority, subject to its agreement, or at the Himan Terrace in the reserve's gateway.
Safety	An armed ranger on every walk and ride, small groups, satellite comms, first-aid standards and an air-evacuation plan.
Sharing the land	Parts of the reserve are also used for sustainable hunting. A shared calendar keeps activities apart; the summit sanctuary and the Gateway are open all year.

A riverbed camp below the Zulia hills.

Recce visits and a pilot walking season are planned for 2027. We would like to hear from operators now.
