OPPORTUNITY · BOTANICAL

Botanical partners

Survey, seed bank, nursery and garden for a Tropical Important Plant Area.

Zulia Conservancy (Uganda) Limited · NFA Licence No. 30 · zuliaconservancy.org · chris@zuliaconservancy.org

THE OPPORTUNITY

A living collection of Karamoja's plants, in Karamoja

Mount Zulia lies inside a Tropical Important Plant Area identified by Kew and Makerere University. Its summit carries a rare fragment of Afromontane dry forest and Uganda's only population of a wild coffee, *Coffea neoleroyi*. The lower slopes hold the dryland flora the Ik and Dodoth have used for generations. We are looking for botanical partners to survey it, bank its seed and grow it.

Survey

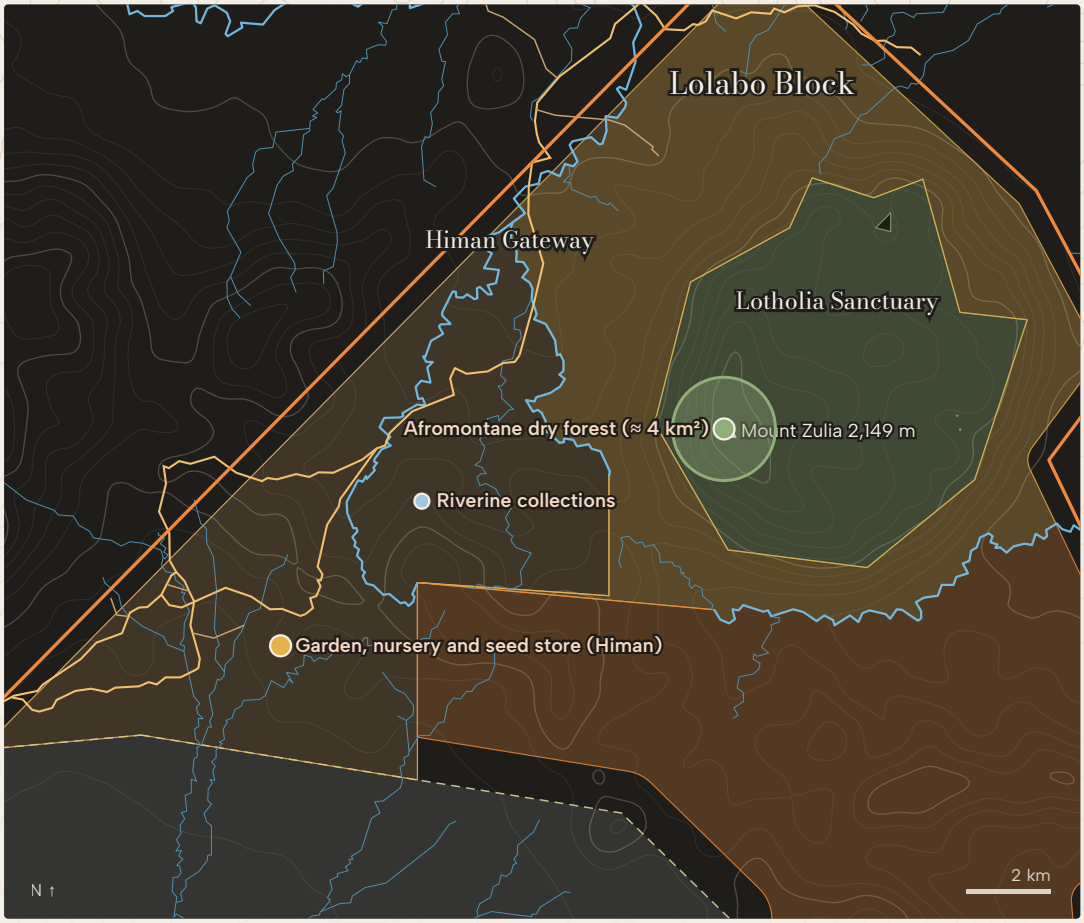

A two-season flora survey with herbarium vouchers and red-list assessments.

Seed and nursery

A seed store and nursery at Himan, and community nurseries for restoration planting.

Garden

A small conservation garden for research, schools and visitors.

PARTNERSHIP

What we offer and seek

Zulia provides	Access, rangers and porters, a base at Himan, community consent processes, and land for the garden and nursery.
We seek	A lead botanical institution, a Ugandan university partner, seed-banking support, garden design, and funders.
Rules	Full compliance with Uganda's access and benefit-sharing regulations; prior informed consent from the communities; Ugandan lead on publications.

Palms along a dry riverbed.
